Rural Contracting	Agrichemical Application	6237, 6240, 6246, 6247, 17232

The above unit standards have been revised to correct an error in the Accreditation and Moderation Action Plan (AMAP) number.

**Date new versions published**

**October 2006**

**Reason for the revision**

These unit standards had been published with the incorrect AMAP number (0121 instead of 0101) when they were last reviewed, the error has now been corrected to AMAP 0101 and new versions reissued.

The standards are currently under review.
