

**FIELD                    MANUFACTURING****Review and Reclassification of *Formed Shapes (Letterpress/Dry Offset)* unit standards****Existing classification**

<b>Subfield</b>	<b>Domain</b>	<b>Id</b>
Printing	Formed Shapes (Letterpress/Dry Offset)	12371-12380, 19462

**New classification**

<b>Subfield</b>	<b>Domain</b>	<b>Id</b>
Printing	Dry Offset	12371-12380, 19462

The PrintNZ Training (formerly Printing & Allied Industries Training Council) has completed the review of the unit standards listed above.

**Date new versions published****October 2006****Planned review date****December 2011****Summary of review and consultation process**

These unit standards were reviewed as they had not undergone a review since their registration.

A group of industry representatives and members of the PrintNZ Training met to discuss the changes required to the unit standards as well as to all other aspects of the Formed Shapes (Letterpress/Dry Offset) training programmes.

It was agreed that the domain of Formed Shapes (Letterpress/Dry Offset) be designated expiring and the unit standards moved to a new domain, Dry Offset, a name that clearly defines the sector without the requirement to include references to Formed Shapes and Letterpress.

The group was asked to consider the following:

- The currency of the unit standards and their suitability for the qualifications.
- The accuracy and appropriateness of their content.
- Whether levels and credits corresponded to performance outcomes.
- Any gaps in skills and/or knowledge that could be captured by the development of new unit standards.

**Main changes resulting from the review**

- Unit standards in the Formed Shapes (Letterpress/Dry Offset) domain have been reclassified in a new Dry Offset domain.
- Titles of all unit standards have changed to reflect the new domain name, and in addition, the titles of unit standards 12373-12378 have changed to reflect skills covered.
- Unit standard 12371 has been replaced by new unit standard 23408.
- Changes have been made to the entry requirements for most unit standards.

- Elements, performance criteria and range statements have been changed in all unit standards to improve assessability, and for consistency of style within the domain.

**Unit standard 12371, categorised as category C, expires at the end of December 2010.**

### **Impact on Accreditation and Moderation Action Plan (AMAP)**

AMAP 0005 has been updated to reflect the changes made to the standards.

### **Impact on existing provider accreditations**

None.

### **Impact on existing qualifications**

Qualifications that contain the reviewed standards or classifications are tabled below.

<b>Affected</b>	The qualification lists a reviewed classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits The qualification lists a C or D category standard
<b>Not materially affected</b>	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

The following PrintNZ Training qualifications are impacted by the outcome of this review and are currently being reviewed to take account of the changes.

In the following table, unit standards in the *Affected* category are identified in bold.

Qualification title	Standard in the qualification
National Certificate in Printing (Formed Shapes – Letterpress/Dry Offset) (Level 3) [Ref: 0498]	<b>12371</b> , 12373, 12374, 12375, 12379
National Certificate in Printing (Formed Shapes – Letterpress/Dry Offset) (Level 4) [Ref: 0499]	12372, 12376-12378, 12380
National Certificate in Printing (Production Support) (Level 2) with strands in Carton Cut and Crease, Carton Forme Making, Finishing (Carton), Sheet-fed Offset, Reel-fed Printing, Screen Printing, and Formed Shapes (Letterpress/Dry Offset) [Ref: 0593]	<b>12371</b> , 12375, 12379, 19462

### **Summary of main changes to standards' Ids, classification, titles, levels, and credits**

All changes are in **bold**.

<b>Key to review category</b>	
<b>A</b>	Dates changed, but no other changes are made - the replacement standard carries the same Id and a new version number
<b>B</b>	Changes made, but the overall outcome remains the same - the replacement standard carries the same Id and a new version number
<b>C</b>	Major changes that necessitate the registration of a replacement standard with a new Id
<b>D</b>	Standard will expire and not be replaced

Subfield      Printing  
 Domain       Formed Shapes (Letterpress/Dry Offset)  
**Dry Offset**
