Stevedoring and Ports Industry	Port Machinery Operations	20585, 20586

Opportunity – The Training Organisation has revised the unit standards listed above.

Date new versions published

September 2006

Planned review dates

**December 2011 (3789)
January 2008 (20585 & 20586)**

Reason for the revision

Feedback from moderators and industry had indicated that changes were required to several unit standards to meet current industry practice.

Unit standard range statements were clarified, and a requirement included for assessment to be carried out in a crane workplace.

Main changes resulting from the revision

- Unit standard 3789 is updated to add information to, and clarify, range statements.
- Unit standards 20585 and 20586 have an additional special note, which states that assessment must be carried out in a crane workplace.
