

**FIELD SERVICE SECTOR****Review of *Cargo Operations* unit standards 20162-20166**

<b>Subfield</b>	<b>Domain</b>	<b>Id</b>
Stevedoring and Ports Industry	Cargo Operations	20162-20166

Tranzqual ITO has completed the review of the unit standards listed above.

**Date new versions published**

**April 2007**

**Planned review date**

**December 2012**

**Summary of review and consultation process**

The review of these five unit standards in the Cargo Operations domain was undertaken as part of the planned review cycle.

The consultation process commenced with the identification and selection of an Industry Advisory Group (IAG), comprising technical representatives from within the stevedoring and ports sector, and a range of assessors and training providers.

IAG members reviewed the processes, procedures and trends likely to impact on performance criteria. Consideration was also given to ease of assessment against each unit standard, as well as the future industry requirements for these unit standards. Feedback was incorporated, and all IAG members endorsed final drafts of the unit standards.

**Main changes resulting from the review**

- Legislation in the special notes updated.
- Reference to the Code of Practice for Health and Safety in Port Operations added to the special notes.
- The special notes for Overseas Market Access Requirement (OMAR) Regulations updated in unit standard 20165.
- Title of unit standard 20164 amended.

There have been no changes to elements or performance criteria.

**Impact on existing provider accreditations**

None.

**Impact on Accreditation and Moderation Action Plan (AMAP)**

None.

**Impact on existing qualifications**

None.

## List of standards showing review categories assigned

All changes are in **bold**.

### Key to review category

- A** Dates changed, but no other changes are made - the new version of the standard carries the same Id and a new version number  
**B** Changes made, but the overall outcome remains the same - the new version of the standard carries the same Id and a new version number  
**C** Major changes that necessitate the registration of a replacement standard with a new Id  
**D** Standard will expire and not be replaced
