

FIELD MANUFACTURING**Revision of *Baking* unit standards 23079 and 23081**

Subfield	Domain	Id
Food and Related Products Processing	Baking	23079, 23081

The Competenz has revised the unit standards listed above.

Date new versions published

August 2007

Planned review date

December 2011 (unchanged)

The review of these unit standards is planned to take place during 2011.

Reason for the revision

This revision was triggered by the need to correct an error in the wording of a range statement and to change the performance criteria to expressions of evidence rather than assessment tasks.

Main changes resulting from the revision

- 'Physical action' corrected to 'physical aeration' in the range statement of pc 2.3 of standard 23081.
- The performance criteria in 23079 and element 1 of 23081 have been re-written so they are expressions of evidence.

Impact on existing provider accreditations

None.

Impact on Accreditation and Moderation Action Plan (AMAP)

None.
