

**FIELD                    ENGINEERING AND TECHNOLOGY****Revision of *Gas Network Construction* qualification****National Certificate in Gas Network Construction (Pipelaying) (Level 3) [Ref: 1022]**

The NZ Extractive Industries Training Organisation has revised the above qualification that was registered in October 2007 following a review.

**Date new versions published****December 2007**

The next qualification review is planned to take place during 2013.

**Reason for the revision**

A compulsory standard was inadvertently omitted from version 4 of the qualification.

**Main changes resulting from the revision**

Standard 10992 was reinstated in the compulsory section of the qualification.

**National Certificate in Gas Network Construction (Pipelaying) (Level 3) [Ref: 1022]**

Changes to structure and content

- standard 10992 reinstated in the compulsory section
- total credits increased from 82 to 85.

**Transition**

Version 4 has been withdrawn and will not be awarded. Any person working towards version 4 of this qualification must transfer to version 5. People currently working towards version 2 or 3 may either complete the requirements for that version or transfer existing credits to version 5.

This qualification contains standards that replace earlier standards. For the purposes of this qualification, people who have gained credit for the expiring standards are exempt from the requirement to gain credit for the replacement standards – see table below.

<b>Credit for</b>	<b>Exempt from</b>
10971	19546
10973	19547
10976, 10990	23086
10977	23086
19548	23086

It is not intended that anyone is disadvantaged by this revision, and the above arrangements have been designed for a smooth transition. However, anyone who feels they have been disadvantaged may appeal to:
