

FIELD LAW AND SECURITY**Revision and Rollover of *Border Quarantine* standards 16819, 16820, 16829, 19222, 19223, and 19224**

Subfield	Domain	Id
Biosecurity	Border Quarantine	16819, 16820, 16829, 19222, 19223, 19224

The Forest Industries Training Education Council (FITEC) has revised the unit standards listed above. The unit standards have also been rolled over to maintain their currency until they are reviewed.

Date new versions published

January 2007

Planned review date

December 2011

Reason for the revision

This revision is part of an ongoing process of updating the Border Quarantine domain, a process that cannot be completed in one exercise because of a shortage of resources and the availability of qualified personnel. The units to be updated were prioritised by Ministry of Agriculture Forestry Quarantine Service.

Main changes resulting from the revision

This revision was necessary to correct anomalies in the level of two unit standards, and to update changes in procedures and relevant agencies.

- The level of unit standards 19222 and 19224 has increased from level 2 to level 3.
- The credits allocated to unit standards 19222 and 19224 have increased to 4.
- Relevant agencies and procedures have been clarified in unit standard 16819.
- The list of agencies to be advised of biosecurity risk items is extended in unit standard 16829.
- Unit standard 16819 is now a prerequisite for unit standard 16820.
- Plant products have been clarified, and additional detail added in unit standard 16820.

Impact on existing provider accreditations

None.

Impact on Accreditation and Moderation Action Plan (AMAP)

None.

Impact on existing qualifications

Qualifications that contain the revised standards or classifications are tabled below.

Affected	The qualification lists a revised classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits
Not materially affected	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

The following FITEC qualification is materially affected by the changes. It will be updated when it is next reviewed.

Qualification title	Standard in the qualification
National Certificate in Biosecurity (Border Quarantine) Level 5 with strands in International Cargo Clearance, International Vessel Clearance, International Aircraft Clearance, and International Mail Clearance [Ref: 0952]	19222 and 19224

Summary of main changes

All changes are in **bold**.

Subfield Biosecurity
Domain Border Quarantine

Id	Title	Level	Credit
16819	Demonstrate knowledge of global biosecurity awareness and the New Zealand response	4	5
