Planned review date for rolled over unit standards

December 2008

Planned review date for remaining unit standards

Unchanged

Reason for the revision and background information

The reason for this revision is to update the accreditation information on the Outdoor Recreation Level 3 and Level 4 unit standards to include the requirement for a visit, and to republish AMAP 0102 showing that requirement. Sfrito has also taken the opportunity to make revisions to special notes and entry information to improve accuracy and consistency across the subfield.

AMAP 0102 was reviewed in June 2005 and the accreditation requirements for Level 3 and 4 were changed to include a visit. However, the registered unit standards listed on the AMAP were not updated to reflect the changed requirements. When the error was detected in February 2006 AMAP 0102 was revised and the previous requirements reinstated until the unit standards could be revised to include the new requirements.

Main changes resulting from the revision

- The accreditation information has been updated to include a *visit*.
- Legislation has been updated, and minor editorial amendments have been made to correct errors and for consistency.
- Prerequisite information on unit standards 20820 and 20821 has been updated.

Impact on existing provider accreditations

None.

Change to AMAP 0102

Standard Setting Body involvement in the accreditation process has been changed.

From:

Levels 1-4 Evaluation of documentation by NZQA and industry.

Level 5 and above Evaluation of documentation and visit by NZQA and industry.

To:

Levels 1 and 2 Evaluation of documentation by NZQA and industry.

Level 3 and above Evaluation of documentation and visit by NZQA and industry.

The AMAP has been issued as version 4.

Other unit standards at Level 3 and 4 registered on AMAP 0102

- Unit standards in the *Te Ao Tūroa* are currently in the process of being rolled over and will be updated to reflect the change to requirements
- Unit standards in the *Adventure Based Learning* domain are currently under review and will be updated to reflect to the change to requirements.

The next AMAP review is planned to take place during December 2012.

Compliance with new requirements

Accreditation requirements will apply with effect from February 2007.
