Summary of review and consultation process

Feedback from industry assessors and moderators indicated that changes were required to the assessment conditions in this unit standard to ensure consistency of assessment.

Main changes resulting from the review

A statement has been added to the special notes relating to assessment. Assessment of the outcomes in this unit standard must be carried out on specific types of cranes, and these are listed in the special note.

A statement has also been added to exclude the use of other types of cranes for assessment, as these are considered unsuitable for meeting the outcomes of the unit standard.
