

FIELD PLANNING AND CONSTRUCTION**Review of *Flooring* unit standards**

Subfield	Domain	Id
Construction Trades	Flooring	9781, 10846, 10848-10850, 16994-17013, 17018-17023, 17381, 21021

The NZ Flooring Industry Training Organisation has completed the review of the unit standards listed above.

Date new versions published

March 2007

Planned review date

December 2012

Summary of review and consultation process

An industry advisory group made up of the training provider and industry assessors met on 28 March 2006 to look at the unit standards listed above as they had reached their planned review date. This group suggested some minor editing changes to the unit standards, the need to update the legislation in the special notes and to designate two unit standards as expiring because they were no longer fit for purpose. The draft unit standards were circulated for consultation and the changes endorsed in June. The group also identified the need for new unit standards to address gaps identified during the review process.

Main changes resulting from the review

- Legislation in the special notes changed to maintain currency.
- New element and performance criteria added to unit standard 9781.
- Credits changed.
- Elements and performance criteria reworded for clarity.
- Unit standards 17381 and 10848 designated as expiring as they are no longer fit for purpose.

Unit standards categorised as category D expire at the end of December 2009.

Impact on existing provider accreditations

None.

Impact on Accreditation and Moderation Action Plan (AMAP)

None.

Impact on existing qualifications

Qualifications that contain the reviewed standards or classifications are tabled below.

Affected	The qualification lists a reviewed classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits The qualification lists a C or D category standard
Not materially affected	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

In the following table, the items that generated the *Affected* status are in **bold**.

The following NZ Flooring Industry Training Organisation qualifications are impacted by the outcome of this review and will be reviewed in 2007.

Qualification title	Standard in the qualification
National Certificate in Flooring with strands in Fine Sand and Finishes; Flooring Retail Sales, Service and Support; Resilient Flooring Installation; Soft Covering Installation; Substrate Preparation; and Wood Overlay Installation (Level 4) [Ref: 0756]	9781, 10848, 17010, 17381
National Certificate in Flooring (Introductory) [Ref: 1126]	9781, 21021

Summary of main changes

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same Id and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same Id and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new Id
D	Standard will expire and not be replaced
