FIELD ENGINEERING AND TECHNOLOGY

Revision and Rollover of *Electricity Supply* unit standards

Subfield	Domain	Id
Electricity Supply	Electricity Supply – Core Skills	12390, 19323-19325, 20091, 20093
	Electricity Supply – Power System Maintenance	14700, 14701
	Electricity Supply – Power System Management	16281

The Electricity Supply Industry Training Organisation has rolled over and revised the unit standards listed above.

Date new versions published **November 2007**

Planned review date **December 2009**

Reason for the revision

These unit standards were rolled over to maintain their currency, and enable the revision of the National Certificate in Electricity Supply (Operator) (Level 3) with strands in Hydro operations and Network operations [Ref: 0889] to proceed. The standards have also been revised to reflect current industry guidelines and regulations.

Main changes resulting from the revision

- Special Notes updated to reflect current industry guidelines and legislation.

Impact on existing provider accreditations

There will be no impact on provider accreditations.

Impact on existing qualifications

None.
