

**FIELD                    ENGINEERING AND TECHNOLOGY****Revision and Rollover of *Electricity Supply – Distribution Networks* unit standards**

<b>Subfield</b>	<b>Domain</b>	<b>Id</b>
Electricity Supply	Electricity Supply – Distribution Networks	10547, 10548, 20061, 20062

The Electricity Supply Industry Training Organisation has rolled over and revised the unit standards listed above.

**Date new versions published**

**October 2007**

**Planned review date**

**December 2010**

**Reason for the revision**

These unit standards have been revised in conjunction with an overall review of the National Certificate in Electricity Supply Cable Jointer qualifications. Prerequisite requirements have been changed to allow entry with 'live work' jointing and terminating standards or 'non-live work' jointing and terminating standards. This is in line with changes to the National Certificate in Electricity Supply (Cable Jointer – Low Voltage) (Level3) [Ref: 0869] where 'non-live work' jointing and terminating standards have now been removed in recognition of the fact that all 'non-live work' is covered in a 'live work' jointing or terminating standard.

**Main changes resulting from the revision**

An additional prerequisite has been included in each unit standard to allow a choice of entry with either a 'live work' or a 'non-live work' jointing or terminating standard.

**Impact on existing provider accreditations**

None.

**Impact on Accreditation and Moderation Action Plan (AMAP)**

None.

**Impact on existing qualifications**

The qualification that contains the revised standards is tabled below.

<b>Affected</b>	The qualification lists a revised classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits
<b>Not materially affected</b>	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

The following ESITO qualification is not materially affected by the changes. It will be updated when it is next reviewed.

Qualification title	Standard in the qualification
National Certificate in Electricity Supply (Cable Jointer - High Voltage) (Level 4) with an optional strand in Cable Jointer Advanced [Ref: 0870]	10547, 10548, 20061, 20062

### Summary of main changes

All changes are in **bold**.

Electricity Supply

Electricity Supply – Distribution Networks

Id	Title	Level	Credit
