

FIELD MANUFACTURING**Review of *Dairy Manufacturing* qualifications**

National Certificate in Dairy Manufacturing (Process Skills) (Level 3) with optional strands in Performance Improvement, and Product Safety [Ref: 1043]

National Certificate in Dairy Manufacturing (Storage and Supply Chain) with an optional strand in Product Safety [Ref: 0747]

The New Zealand Industry Training Organisation has completed the review of the qualifications listed above.

Date new versions published

September 2007

The next qualification review is planned to take place during 2012.

Summary of review and consultation process

The National Certificate in Dairy Manufacturing (Process Skills) (Level 3) with optional strands [Ref: 1043] was reviewed to provide for the incorporation of the National Certificate in Dairy Manufacturing (Storage and Supply Chain) with an optional strand [Ref: 0747] into a single qualification for both processing and supply chain functions. Additional strands have therefore been added to recognise these functions. Changes have also been made to the National Certificate in Dairy Manufacturing (Process Skills) (Level 3) with optional strands [Ref: 1043] to incorporate changes to some of the unit standards and the development of five new unit standards.

Main changes resulting from the review

- Change in title and structure for the National Certificate in Dairy Manufacturing (Process Skills) (Level 3) with optional strands in Performance Improvement, and Product Safety [Ref: 1043]
- The National Certificate in Dairy Manufacturing (Storage and Supply Chain) with an optional strand in Product Safety [Ref: 0747] has been designated expiring.

Key to Qualification Review Categories

Category A The qualification is published as a new version with the same NQF ID	Changes are made to SSB name, contact details or purpose statement
	No change is made to title, rules or components of the qualification
	No transition arrangements are required
Category B The qualification is published as a new version with the same NQF ID	Changes are made to title, rules or components
	The new version of the qualification recognises a similar skill set to that recognised by the previous version
	The SSB is confident that people awarded the new or previous version are comparable in terms of competence
Category C A new (replacement) qualification is published with new NQF ID	Transition arrangements are required if candidates must gain additional/different credits for the new version
	Significant changes are made to the qualification in terms of components, structure, type or level
	The SSB views people with the replacement qualification as being significantly different in terms of competence from those with the replaced qualification
	Transition arrangements are required
Category D Qualification will expire. There is no replacement qualification	Transition may be limited to phase-out dates
	Qualification is no longer required by industry
	The qualification is designated as expiring and a last date for meeting the qualification requirements is set
