Tranzqual ITO has completed the review of the unit standards listed above.

Date new versions published **September 2007**

Planned review date **December 2012**

Summary of review and consultation process

The review was necessitated by the implementation, on 1 October 2007, of the Land Transport Amendment Act 2005, amendments to the Land Transport (Offences and Penalties) Regulations 1999, and the following new Land Transport Rules:

- Land Transport Rule: Operator Licensing 2007
- Land Transport Rule: Work Time and Logbooks 2007.

These legislated changes have had varied impacts on the above unit standards, and as these unit standards are included in the courses approved by the Director of Land Transport (approved courses) for the purposes of meeting the requirements for driver licences under Clause 95 of the Land Transport (Driver Licensing) Rule 1999, the reviewed unit standards have the approval of the Director. In this regard Land Transport New Zealand made all final determinations.

Although the only required external stakeholder for the review was Land Transport New Zealand, the opportunity was taken to consider recommendations based on user and industry feedback.

Main changes resulting from the review

- Unit standard 15164 was designated expiring and will not be replaced*. However a new unit standard (24089) was developed to reflect the approved course outcomes required by Land Transport Rule: Work Time and Logbooks 2007, and is listed in the summary table at the end of this report.
- The remaining unit standards had changes, in terms of removal, addition, and amendment, to special notes, elements, and performance criteria to align them with legislation and the new Rules and to improve their quality in terms of current best practice.
- Range statements were removed where 'relevant legal requirements' provide the range in relation to the requirements of the performance criterion.
- Unit standards 17574, 17579, and 17580 had a slight change of title to more accurately reflect the unit standard outcome.
- Unit standard 17579 was increased in credit from 4 to 5.

* It should be noted credit achieved for unit standard 15164 will not be accepted for driver licensing purposes on or after 1 October 2007, but will be accepted for qualification transition purposes until its expiry on 31 December 2008.

Unit standard 15164 categorised as category D expires at the end of December 2008.
