

**FIELD                    ENGINEERING AND TECHNOLOGY****Review of *Automotive Preventative Maintenance* unit standards**

<b>Subfield</b>	<b>Domain</b>	<b>Id</b>
Motor Industry	Automotive Preventative Maintenance	955, 956, 2347

The NZ Motor Industry Training Organisation (Inc) (MITO) has completed the review of the unit standards listed above.

**Date new versions published**

**April 2008**

**Planned review date**

**December 2012**

**Summary of review and consultation process**

This review is part of a major review of the Motor Industry and Outdoor Fabric Product qualifications (QReview) being conducted by MITO. The QReview Steering Group endorsed these standards after major consultation was carried out covering a wide range of stakeholders through focus group meetings and followed by industry wide consultation. These standards will form part of the new qualifications for Vehicle Servicing, Automotive Electrical and Mechanical, Automotive Heavy Engineering, Automotive Specialist Engineering, and Automotive Body.

**Main changes resulting from the review**

- The title and content of standard 2347 have been changed to more accurately reflect that this standard refers to a pre-assessment of the condition of a motor vehicle before it is formally assessed for a Certificate of Fitness (CoF) by a Land Transport New Zealand certified Vehicle Inspector.
- Standards 955 and 956 have been designated category D and will not be replaced as they no longer meet industry needs.

**Unit standards categorised as category D expire at the end of December 2011.**

**Impact on existing provider accreditations**

None.

**Impact on Accreditation and Moderation Action Plan (AMAP)**

None.

## Impact on existing qualifications

Qualifications that contain the reviewed standards or classifications are tabled below.

<b>Affected</b>	The qualification lists a reviewed classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits The qualification lists a C or D category standard
<b>Not materially affected</b>	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

The following MITO qualification is affected by the outcome of this review and will be revised/reviewed in 2008.

Qualification title	Standard in the qualification
National Certificate in Motor Industry (Motorcycle Engineering) [Ref: 0015]	956

The following MITO qualification is not materially affected by the changes. It will be updated when it is next reviewed.

Qualification title	Standard in the qualification
National Certificate in Motor Industry (Automotive Heavy Engineering) with strands in Agricultural Equipment, Plant and Equipment, and Road Transport [Ref: 0003]	2347

## Review Categories and changes to classification, title, level and credits

All changes are in **bold**.

<b>Key to review category</b>	
<b>A</b>	Dates changed, but no other changes are made - the new version of the standard carries the same Id and a new version number
<b>B</b>	Changes made, but the overall outcome remains the same - the new version of the standard carries the same Id and a new version number
<b>C</b>	Major changes that necessitate the registration of a replacement standard with a new Id
<b>D</b>	Standard will expire and not be replaced

### Subfield Motor Industry

Id	Domain	Title	Level	Credit	Review Category
955	Automotive Preventative Maintenance	Inspect motor vehicles and trailers for Warrant of Fitness requirements	3	4	D
956	Automotive Preventative Maintenance	Inspect motorcycles for Warrant of Fitness requirements	4	2	D
2347	Automotive Preventative Maintenance <b>Automotive Preventive Maintenance</b>	Assess motor vehicles for Certificate of Fitness (CoF) requirements  <b>Complete a pre-assessment of a motor vehicle to determine compliance with Certificate of Fitness (CoF) requirements</b>	4	2	B
