

FIELD ENGINEERING AND TECHNOLOGY**Revision of *Mechanical Engineering* unit standards**

Subfield	Domain	Id
Mechanical Engineering	Fire Protection Systems Technology	17708, 17712-17715
	Fixed Fire Protection Systems	9362, 9372, 9375, 17730, 17731, 17734, 17735, 18432, 18434

Competenz has revised the unit standards listed above.

Date new versions published

April 2008

Planned review date

**December 2011
(unchanged)**

Reason for the revision

This revision is due to the revision of New Zealand Standard 4541:2003, *Automatic fire sprinkler systems* as New Zealand Standard 4541:2007, *Automatic fire sprinkler systems*.

Main changes resulting from the revision

- All references have been updated as required.
- Minor editorial corrections have been made as required.
- Definitions not required have been removed from unit standards 9362, 9372, 9375, 17708, 17713, 17714, 17730, 17731, 17735, and 18434.
- Definitions required have been added to unit standards 17713 and 17714.
- An item listed as a definition in unit standard 17713 has been reformatted as an explanatory special note.
- Reference to 'Appendix J' in special note 2 of unit standard 17731 has been changed to 'Appendix T'.
- Overlaps between performance criteria in elements 1 and 2 of unit standard 17714 have been resolved.
