Dairy Manufacturing	Dairy Workplace Health and Safety	16305, 16683, 19985

The New Zealand Industry Training Organisation (NZITO) has completed the review of the unit standards listed above.

**Date new versions published**

**August 2008**

**Planned review date**

**December 2013**

**Summary of review and consultation process**

NZITO has developed a set of new unit standards for the Occupational Health and Safety Practice domain. As a result of this development the unit standards listed above have been designated by the industry as no longer fit for purpose as there is a preference for generic health and safety unit standards that are transportable rather than sector specific unit standards.

**Main changes resulting from the review**

- The unit standards listed above have been designated as expiring.
- New unit standards have been developed (listed in the table at the end of this report); they are recommended alternatives for the expiring unit standards.

**Unit standards categorised as category D expire at the end of December 2010.**

**Impact on existing provider accreditations**
