

FIELD ENGINEERING AND TECHNOLOGY**Revision and Rollover of *Electronic Engineering* standards**

Subfield	Domain	Id
Electronic Engineering	Core Electronics	5934, 8195, 20432, 20433, 20615
	Electronic Installation and Maintenance	8191

The ElectroTechnology Industry Training Organisation rolled over the standards listed above to maintain their currency until they were reviewed.

Date new versions published

August 2008

Planned review date

December 2011

Reason for the revision

The standards were revised to enable the review of the National Certificate in Industrial Measurement and Control (Level 4) [Ref: 0410] to be undertaken.

Main changes resulting from the revision

Minor editorial amendments were made to the standards to ensure greater consistency among them.

Impact on existing provider accreditations

None.

Impact on existing qualifications

None.
