The NZ Extractive Industries Training Organisation has revised the qualifications listed above.

Date new versions published

August 2008

The next qualification review is planned to take place during 2012.

Reason for the revision

The qualifications were revised to add new standards for recycling and recovery, resource recovery operations, construction and demolition, and reusable goods. The addition of these standards gives existing candidates a wider choice and opens up the qualifications to candidates from a wider range of workplaces. During the revision it was noticed that the prerequisite diagram for the National Certificate in Resource Recovery Operations (Level 3) [Ref: 1347] contained an error.

Main changes resulting from the revision

- new standards were added to the elective section of each qualification
- the prerequisite diagram in Q1347 was corrected and updated.
