

FIELD SERVICE SECTOR**Revision and Rollover of *Cranes* unit standards 23960-23964**

Subfield	Domain	Id
Cranes	Power-operated Elevating Work Platforms	23960-23964

Opportunity – The Training Organisation has revised and rolled over the unit standards listed above.

Date new versions published

July 2008

Planned review date

December 2013

Reason for the revision and rollover

These unit standards were revised and rolled over because some range statements contained items that were a barrier to assessment.

Main changes resulting from the revision

A range statement in each unit standard relating to evidence required for moving the Elevating Work Platform was deleted.

Performance criterion 2.7 of standard 23960 was adjusted to include reporting of damage as well as faults, and this change was reflected in the related element.
