FIELD MANUFACTURING

Revision and rollover of *Wool Scouring* standards 2444 and 2445

Subfield	Domain	Id
Textiles Manufacture	Wool Scouring	2444, 2445

The Apparel and Textile Industry Training Organisation has revised and rolled over the standards listed above.

Date new versions published **July 2008**

Planned review date **December 2010**

Reason for the revision and rollover

The standards did not supply any information about reference materials to support the learning required for these standards. The standards have now been rolled over to maintain their currency until they are reviewed in 2010.

Main changes resulting from the revision

- A special note has been added to both standards giving guidance to the source for reference material.
- A special note has been added to standard 2444 to indicate that Canesis Network Ltd is now called AgResearch Textiles.
- Canesis has been replaced by WRONZ Comprehensive Scouring System in standard 2444.

Impact on existing provider accreditations

None.

Impact on Accreditation and Moderation Action Plan (AMAP)

None.

Impact on existing qualifications

None.
