

FIELD SERVICE SECTOR**Revision and Rollover of *Scaffolding* unit standards 20855-20862****Existing classification name**

Subfield	Domain	Id
Lifting Equipment	Scaffolding	20855-20862

New classification name

Subfield	Domain	Id
Lifting Equipment	Elementary Scaffolding	20855-20860
	Rigging and Scaffolding Safety	20861-20862

Opportunity – The Training Organisation (OTTO) has revised and rolled over the unit standards listed above to maintain their currency until they are reviewed. The unit standards concerned have not been used sufficiently to warrant a review at this stage. They have, however, been checked for currency of legislation and regulations.

The appropriate OTTO advisory group, Scaffolding Rigging and Industrial Rope Access Training (SRIIT) which is made up of employer, union, training provider, learner, assessor and wider industry representatives led the decision to rollover these unit standards having circulated their wider membership, training providers and the national moderator for scaffolding.

Date new versions published

June 2008

Planned review date

December 2013

Main changes resulting from the revision

The unit standards were all previously registered in the *Scaffolding* domain. This domain is now lapsing and the unit standards have been moved to the new domains specified in the table above.

No other changes have been made.
