

FIELD ENGINEERING AND TECHNOLOGY**Revision and Rollover of *Electricity Supply* unit standard 12392**

Subfield	Domain	Id
Electricity Supply	Electricity Supply - Core Skills	12392

The Electricity Supply Industry Training Organisation has rolled over and revised the unit standard listed above.

Date new version published

March 2008

Planned review date

December 2010

Reason for the revision

This unit standard was rolled over to maintain its currency, and enable the revision of the National Certificate in Electricity Supply (Hydro Operator) (Level 4) [Ref: 0893]. It has also been revised to reflect current guidelines and regulations, and range statements have been amended to allow candidates to be more selective in their options.

Main changes resulting from the revision

- Special notes updated for consistency and to reflect current guidelines and legislation.
- Performance criteria and range statements updated for accuracy and readability.
- The standard has a new planned review date of December 2010.

Impact on existing provider accreditations

None.

Impact on existing qualifications

None.
