PrintNZ Training has completed the review of the unit standards listed above.

**Date new versions published** **March 2008**

**Planned review date** **December 2013**

**Summary of review and consultation process**

These unit standards were reviewed as they were due for review in December 2007.

The review was conducted through consultation with representatives from GS1 and PrintNZ Training. On 7 November 2007 an assessor from GS1, a course graduate, and a representative from PrintNZ met to discuss the changes required to the unit standards.

The group considered the following:

- The currency of the unit standards.
- The accuracy and appropriateness of their content.
- Whether the level and credits correspond to performance outcomes.
- Any gaps in skills and/or knowledge that could be captured by the development of new unit standards.

A change in international terminology, in particular the EAN.UCC system changing to the GS1 system.

It was acknowledged that credits and levels of the unit standards needed to be adjusted to reflect the work involved and the level of complexity. A new Management in Print domain was registered to provide a better fit with industry.

**Main changes resulting from the review**

- The unit standards have been reclassified in the new Management in Print domain.
- Titles of all unit standards have changed to incorporate a change in international terminology.
- Special notes in all unit standards have changed.
- Credits of unit standard 21141 have increased from 2 to 3.
- Level and credits of unit standard 21142 have increased from 3 to 4 and 5 to 7 respectively.
- Credits of unit standard 21143 have increased from 5 to 6.
- Minor changes have been made to elements, performance criteria, and range statements to reflect terminology changes and for improved clarity.
