

FIELD ENGINEERING AND TECHNOLOGY**Review of *Electricity Supply* unit standards**

Subfield	Domain	Id
Electricity Supply	Electricity Utilisation	14191, 14192

The Electricity Supply Industry Training Organisation has completed the review of the unit standards listed above.

Date new versions published

September 2008

Planned review date

December 2012

Summary of review and consultation process

These unit standards have been reviewed in order to update them to reflect current guidelines and regulations and ensure they are viable for use. Industry experts were contacted in order to undertake this review; changes were made in line with their feedback and have met with their approval. Neither standard is currently part of a qualification but it is envisaged that they will be at a future date.

Main changes resulting from the review

- Special notes updated to reflect current guidelines and legislation.
- Range statements altered to allow for diversity across organisations.
- Level of standard 14191 lowered from 5 to 4, in order to better align with the level descriptors and standard 14192.

Impact on existing provider accreditations

Current Accreditation for			Accreditation extended to		
Nature of accreditation	Classification	Level	Nature of accreditation	Id	Level
Domain	Electricity Utilisation	Any	Standard	14191, 14192	4

Impact on Accreditation and Moderation Action Plan (AMAP)

None.

Impact on existing qualifications

None.

Review Categories and changes to classification, title, level and credits

All changes are in **bold**.

Key to review category

- A** Dates changed, but no other changes are made - the new version of the standard carries the same Id and a new version number
- B** Changes made, but the overall outcome remains the same - the new version of the standard carries the same Id and a new version number
- C** Major changes that necessitate the registration of a replacement standard with a new Id
- D** Standard will expire and not be replaced
