FIELD ENGINEERING AND TECHNOLOGY

Revision of *Petrochemical Industry* unit standard 24039

Subfield	Domain	Id
Petrochemical Industry	Petrochemical Operations Communication and Responses	24039

The NZ Extractive Industries Training Organisation has revised the unit standard above.

Date new versions published **September 2008**

Planned review date **December 2011**

Reason for the revision

Industry requested that this unit standard be updated to correct references to pieces of equipment that were not common to all Personal Evacuation Systems (PES).

Main changes resulting from the revision

- The title was amended to reflect that, for assessment purposes, a PES could now be used in simulated environment.
- A special note was added to state that the standard could be assessed in a simulated environment.
- Some performance criteria and range statements were amended to clarify evidence requirements.

Impact on existing provider accreditations

None.

Impact on existing qualifications

None.

Summary of main changes

All changes are in **bold**.

Subfield Petrochemical Industry
