

FIELD SERVICE SECTOR**Revision of *Food and Beverage Service* unit standard 17285**

Subfield	Domain	Id
Hospitality	Food and Beverage Service	17285

The Hospitality Standards Institute has revised the unit standard above.

Date new version published

April 2009

Planned review date

December 2013

Reason for the revision

This revision is to meet industry expectations for the standard and clarify the assessment environment requirements for assessors. Special note 4 in this standard is generic to all Level 2 standards under AMAP 112. It was added to all *Hospitality* subfield standards at Level 2, following publication of version 4 of the AMAP, in 2008. However, this standard relates specifically to commercial espresso equipment, which have features and capabilities not found in domestic coffee appliances. Therefore the standard has been revised to ensure these requirements are explicit.

Main changes resulting from the revision

The word 'equipment' has been replaced with 'commercial equipment' in the title, purpose statement, special note 4 and elements.

Impact on existing provider accreditations

None.

Impact on existing qualifications

The following HSI qualification is not materially affected by the changes. It will be updated when it is next reviewed.

Qualification title	Standard in the qualification
National Certificate in Hospitality (Food and Beverage Service) (Level 3) with strands in Food Service, Barista, Beverage Service, Bar Service, Wine Service, and Functions Service [Ref: 0556]	17285

Summary of main changes

All changes are in **bold**.

Subfield Hospitality
