The Joinery Industry Training Organisation has completed the review of the qualifications listed above.

**Date new versions published****April 2009**

The next qualification review is planned to take place during 2014.

**Summary of review and consultation process**

In February 2008 the Joinery Advisory Group met to review the joinery standards and qualifications. As a result of changes to the standards, the qualifications were also looked at to determine whether they were still fit for purpose. The development of six new standards and the designation of some existing standards as expiring, required changes to be made to the qualifications. The changes were endorsed by all of the stakeholders in June 2008. Candidates enrolling in Training Agreements in 2010 will be enrolled in the latest versions of the qualifications.

**Main changes resulting from the review**

- Changes to credit totals.
- Changes to standard titles, levels and credits due to review.
- Inclusion of new standards.
- Changes in structure.
