

FIELD ENGINEERING AND TECHNOLOGY**Review of *Electricity Supply* qualifications**

National Certificate in Electricity Supply (Line Mechanic Transmission Live Work) (Level 5) [Ref: 1120]

National Certificate in Electricity Supply (Overhead Cable Installer) (Level 2) [Ref: 0919]

The Electricity Supply Industry Training Organisation (ESITO) has completed the review of the qualifications listed above.

Date new versions published

December 2009

Summary of review and consultation process

A review was undertaken of the above qualifications to ascertain their continued relevance to industry. Consultation determined that the qualifications were surplus to requirements.

There have been no enrolments on to these qualifications for several years, and no recent completions. Industry was notified of the intention to expire these qualifications and no objections were received. Consequently it has been determined that these qualifications should be expired.

Main changes resulting from the review

- The National Certificate in Electricity Supply (Line Mechanic Transmission Live Work) (Level 5) [Ref: 1120] was designated expiring and will not be replaced.
- The National Certificate in Electricity Supply (Overhead Cable Installer) (Level 2) [Ref: 0919] was designated expiring and will not be replaced.

National Certificate in Electricity Supply (Line Mechanic Transmission Live Work) (Level 5) [Ref: 1120]

Review category	D	See Key to Qualification Review Categories at the end of report
-----------------	----------	---

There were no changes to the structure and content, however the prerequisite qualification for entry has been updated to reflect the replacement qualification. The last date for assessment for this qualification is 31 December 2010.

National Certificate in Electricity Supply (Overhead Cable Installer) (Level 2) [Ref: 0919]

Review category	D	See Key to Qualification Review Categories at the end of report
-----------------	----------	---

There were no changes to the structure and content. The last date for assessment for this qualification is 31 December 2010.

It is not intended that anyone be disadvantaged by the review and expiry of these qualifications. However, anyone who feels that they have been disadvantaged may appeal to:

Key to Qualification Review Categories

Category A The qualification is published as a new version with the same NQF ID	Changes are made to SSB name, contact details or purpose statement
	No change is made to title, rules or components of the qualification
	No transition arrangements are required
Category B The qualification is published as a new version with the same NQF ID	Changes are made to title, rules or components
	The new version of the qualification recognises a similar skill set to that recognised by the previous version
	The SSB is confident that people awarded the new or previous version are comparable in terms of competence
	Transition arrangements are required if candidates must gain additional/different credits for the new version
Category C A new (replacement) qualification is published with new NQF ID	Significant changes are made to the qualification in terms of components, structure, type or level
	The SSB views people with the replacement qualification as being significantly different in terms of competence from those with the replaced qualification
	Transition arrangements are required
	Transition may be limited to phase-out dates
Category D Qualification will expire. There is no replacement qualification	Qualification is no longer required by industry
	The qualification is designated as expiring and a last date for meeting the qualification requirements is set
