FIELD MANUFACTURING

Revision of *Occupational Health and Safety Practice* unit standard 17459

Subfield	Domain	Id
Occupational Health and Safety	Occupational Health and Safety Practice	17459

The New Zealand Industry Training Organisation has revised the unit standard above.

Date new version published **June 2009**

Planned review date **December 2014**

Reason for the revision

This unit standard is used by both NZITO and Tranzqual ITO candidates. The unit standard is administered by NZITO but has to meet the requirements of both sets of candidates. Through Tranzqual ITO's extensive consultation process two changes have been identified to ensure that the evidence requirements can be met by all parties.

Main changes resulting from the revision

- Change to the legislative requirements in special note 2, to remove reference to Land Transport New Zealand requirements.
- Amendment to the range of element 3, to reduce the sufficiency requirements from six to three.

Impact on existing provider accreditations

None.

Impact on existing qualifications

None.
