

FIELD ENGINEERING AND TECHNOLOGY**Review of *Electricity Supply – Core Skills* unit standard 23899**

Subfield	Domain	Id
Electricity Supply	Electricity Supply – Core Skills	23899

The Electricity Supply Industry Training Organisation has completed the review of the unit standard listed above.

Date new versions published

March 2009

Planned review date

December 2012

Summary of review and consultation process

Following feedback from industry, this unit standard was reviewed and amended to reflect the fact that polarity tests are not conducted on high voltage electricity networks. Polarity testing was removed from the unit standard which now just covers phasing tests.

Main changes resulting from the review

- Title, purpose statement and element updated to remove references to polarity testing.
- Special notes updated to reflect current guidelines and legislation.

Impact on existing provider accreditations

None.

Impact on Accreditation and Moderation Action Plan (AMAP)

None.

Impact on existing qualifications

Qualifications that contain the reviewed standards or classifications are tabled below.

Affected	The qualification lists a reviewed classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits The qualification lists a C or D category standard
Not materially affected	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

The following ESITO qualifications are not materially affected by the changes. They will be updated when they are next reviewed.

Qualification title	Standard in the qualification
National Certificate in Electricity Supply (Cable Jointer - High Voltage) (Level 4) with an optional strand in Cable Jointer Advanced [Ref: 0870]	23899
National Certificate in Electricity Supply (Line Mechanic Distribution) (Level 4) [Ref: 0874]	23899

Review Categories and changes to classification, title, level and credits

All changes are in **bold**.

Key to review category

- A** Dates changed, but no other changes are made - the new version of the standard carries the same Id and a new version number
- B** Changes made, but the overall outcome remains the same - the new version of the standard carries the same Id and a new version number
- C** Major changes that necessitate the registration of a replacement standard with a new Id
- D** Standard will expire and not be replaced

Subfield Electricity Supply

Id	Domain	Title	Level	Credit	Review Category
23899	Electricity Supply – Core Skills	Carry out polarity and phasing on HV electricity networks Carry out phasing tests on HV electricity networks	3	2	B
