

FIELD ENGINEERING AND TECHNOLOGY**Revision of *Telecommunications* qualification****National Certificate in Telecommunications (Level 2) [Ref: 0338]**

The ElectroTechnology Industry Training Organisation (ETITO) has revised the qualification listed above.

Date new versions published**March 2009**

The next qualification review is planned to take place during 2013.

Reason for the revision

Version 4 was issued following a revision in order to improve assessability. Magnetism and electricity standards 25070-25072 replaced standard 15843.

Main changes resulting from the revision

Changes to structure and content

- standards 25070-25072 replaced standard 15843
- standard 1277 was removed
- credit value of standard 15845 increased from 3 to 4
- titles of standards 15846, 15849, and 7064 were updated
- qualification credit total decreased from 54 to 52.

Transition

Trainees may either complete the requirements of version 3 of the qualification or transfer to version 4. The last date for assessments to take place for version 3 of this qualification is 31 December 2010.

All new trainees will be enrolled in programmes leading to version 4 of the qualification.

This qualification contains standards that replace an earlier standard. For the purposes of this qualification, people who have gained credit for the expiring standard are exempt from the requirement to gain credit for the replacement standards – see table below.

Credit for	Exempt from
15843	25070, 25071, 25072

It is not intended that anyone is disadvantaged by this revision and the above arrangements have been designed for a smooth transition. Anyone who feels they have been disadvantaged may appeal to:
