Revision of *Fibreboard Packaging* qualification

National Certificate in Fibreboard Packaging (Paper Bag and Sack Converting) (Level 3) with strands in Bottoming, and Tubing [Ref: 1494]

The Communications and Media Industry Training Organisation (CMITO) has revised the qualification listed above.

Date new versions published

November 2009

The next qualification review is planned to take place during 2014.

Reason for the revision

The qualification was revised to take account of the new National Certificate in Fibreboard Packaging (Paper Bag and Sack Converting) (Level 4) [Ref: 1515], which has been developed for experienced machine operators in the paper bag and sack converting sector of the fibreboard packaging industry.

Main changes resulting from the revision

The purpose statement was amended to clarify that this qualification can lead to the new National Certificate in Fibreboard Packaging (Paper Bag and Sack Converting) (Level 4) [Ref: 1515].

National Certificate in Fibreboard Packaging (Paper bag and Sack Converting) (Level 3) with strands in Bottoming, and Tubing [Ref: 1494]

Changes

- The purpose statement was updated.
- There were no changes to structure and content.

Transition

There are no transition consequences resulting from this revision.
