Management	First Line Management	19022

NZQA National Qualifications Services (NQS) has revised the unit standard listed above.

Date new version published **October 2009**

Planned review date **December 2014**

Reason for the revision

This unit standard was excluded from the 2006 review of the unit standards in domain First Line Management, and was referred for review to the Human Resource Management (HRM) review. However, as this standard is not intended for HRM specialists, the HRM review group decided not to review it with the specialist standards. The unit standard will therefore be reviewed as part of the strategic reviews of Field Business, planned to begin in 2012.

Unit standard 19022 has therefore been revised for currency, and has been reclassified. Its period of registration on the NQF has been extended to 2014.

Main changes resulting from the revision

As a result of the revision, classification has been changed, legislation has been updated and unit standard 19027 (expiring) has been removed from entry information. No other changes have been made.
