# FIELD MANUFACTURING

## Review of Carpet Manufacture unit standard 7194

Subfield	Domain	ld
Textiles Manufacture	Carpet Manufacture	7194

The Apparel and Textiles Industry Training Organisation (ATITO) has completed the review of the unit standard listed above.

## Date new versions published

# Planned review date

# Summary of review and consultation process

Members of the carpet industry requested that the SSB develop new standards relating to the tufting process. Although a standard for tufting was already registered on the framework it was too large and was not broad enough in its scope. It was decided to replace the existing standard with smaller standards which assessed the range of skills required.

### Main changes resulting from the review

• Unit standard 7194 was designated expiring and is replaced with unit standards 26026-26030.

## Unit standard categorised as category C expire at the end of December 2011.

#### Impact on existing accreditations

None.

#### Impact on registered qualifications

The qualification that contains the reviewed standard is tabled below.

Key to type of impact			
Affected	The qualification lists a reviewed classification (domain or subfield) in an elective set		
	The qualification lists a standard that has changes to level or credits		
	The qualification lists a C or D category standard		
Not materially affected	The qualification lists a standard that has a new title		
	The qualification lists a standard that has a new classification		

The following ATITO qualification is affected by the outcome of this evaluation and will be updated when it is reviewed in 2010.

Qualification Title and Reference	ID
National Certificate in Carpet Manufacture (Carpet Tufter	7194
Tuning) (Level 5) with an optional strand in Tuning of Multi-	
height and Enhanced Graphics Tufters [Ref: 0280]	

# Review Categories and changes to classification, title, level and credits

All changes are in **bold**.

Key to review category	

A Dates changed, but no other changes are made - the new version of the standard carries the same Id and a new version number

**B** Changes made, but the overall outcome remains the same - the new version of the standard carries the same Id and a new version number

- $\label{eq:constraint} \textbf{C} \quad \mbox{Major changes that necessitate the registration of a replacement standard with a new Id}$
- D Standard will expire and not be replaced

# Subfield Textiles Manufacture

ld	Title	Level	Credit	Review Category
7194	Tune and maintain cut pile and loop pile carpet tufters for single pile height operation	5	50	C
26026	Demonstrate knowledge of and carry out maintenance of a yarn splicing machine	5	10	
26027	Review the capability of carpet tufting machines and select and set up a tufting machine to run a product trial	5	10	
26028	Prepare for and carry out long period maintenance of a carpet tufting machine	5	10	
26029	Develop and manage preventative maintenance schedules for carpet tufting machinery	5	10	
26030	Prepare for and carry out short period maintenance of a carpet tufting machine and change the configuration	5	10
