FIELD AGRICULTURE, FORESTRY AND FISHERIES

Review of *Seafood Risk Management* unit standard 12315

Subfield	Domain	Id
Seafood	Seafood Risk Management	12315

The Seafood ITO has completed the review of the unit standard listed above.

Date new versions published **February 2010**

Planned review date **December 2014**

Summary of review and consultation process

This review was prompted by the industry discovering that the unit standard was not fit for purpose. This unit standard was reviewed to reflect changes within the seafood industry and to ensure accuracy. It was presented to the wider risk management sector for consultation and feedback and the final version was endorsed. The review of this unit standard has ensured that it continues to meet industry requirements and demand.

Main changes resulting from the review

- The level has increased from 3 to 4 to reflect the significant level of supervision required, and to reflect the need to understand technical concepts in hazard control.
- Special notes have been updated for accuracy.
- The purpose statement, element 1 and key performance criteria have been amended for consistency with the outcomes of the unit standard.

Impact on existing provider accreditations

None.

Impact on Accreditation and Moderation Action Plan (AMAP)

None.

Impact on existing qualifications

None.
