

Field Engineering and Technology**Revision and Rollover of *Electricity Supply* unit standards**

Subfield	Domain	ID
Electricity Supply	Electricity Supply – Core Skills	10508, 12300, 18038, 18274
	Electricity Supply – Power System Management	11578

The Electricity Supply Industry Training Organisation has completed the revision and rollover of the unit standards listed above.

Date new versions published

July 2010

Planned review date

December 2011

Summary

The unit standards in the Electricity Supply – Core Skills domain are due for a full review in 2011. However, the SSB is currently developing a new utility arborist qualification which will include these unit standards. The unit standards were therefore revised and rolled-over to update terminology and legislation so that they can be included in this qualification prior to their full review in 2011.

Unit standard 11578 in the Electricity Supply – Power System Management domain was also revised and rolled-over so that it can be included in a new diploma which the SSB is currently developing. The unit standard will be reviewed later in 2010 as part of the review of the National Certificate in Electricity Supply (Power Technician) (Level 5) [Ref: 1260].

Main changes

- The special notes were updated, including the references to legislation.
- Minor updates were made to the elements and performance criteria.

The *Registration Criteria for National Qualifications Framework (NQF) Unit Standards* have been reviewed and replaced with the *Quality assurance criteria for the listing of unit standards on the Directory of Assessment Standards*. The changes made to the criteria during this review reflect the replacement of the NQF and the Register with the New Zealand Qualifications Framework (NZQF) and the Directory of Assessment Standards, the inclusion of criteria for grades, and changes to terminology and format of unit standards. The main changes to terminology are that:

- Special Notes were renamed *Explanatory notes*
- Elements were renamed *Outcomes*
- Performance Criteria were renamed *Evidence requirements*.

The unit standards covered by this report have been published in the new format.
