	Seafood Processing	21976, 21980

The Seafood Industry Training Organisation has completed the review of the unit standards listed above.

**Date new versions published**

**March 2010**

**Planned review date**

**December 2014**

**Summary of review and consultation process**

These unit standards were due to be reviewed in 2009 so an advisory group made up of experts was set up to undertake the review. They met in August 2009 to ensure the unit standards still meet the requirements of the seafood processing sector and to ensure that they were clear, logical and fit for purpose. These unit standards were presented to the seafood processing sector for consultation and review and the final versions were endorsed. With amendments they met industry requirements and demand.

**Main changes resulting from the review**

- Purpose statements, elements, performance criteria and range statements have been amended for consistency with the outcomes of the unit standards.
- Special notes have been amended for accuracy and clarity.
- Legislation and regulations have been updated for accuracy and currency.
- Credit value for unit standard 21976 has increased from 5 to 10 to better reflect the time spent on learning, practice and assessment.

**Impact on existing provider accreditations, Accreditation and Moderation Action Plan (AMAP), and existing qualifications**

None.

**Review Categories and changes to classification, title, level, and credits**

All changes are in **bold**.
