## Field Engineering and Technology

#### Change to expiry date for *Engineering – Fabrication* unit standard 2415

Subfield	Domain	ID
Mechanical Engineering	Engineering – Fabrication	2415

Competenz has extended the expiry date of the unit standard above.

#### Date new versions published

# New expiry date

#### December 2014

October 2010

#### Summary

Unit 2415, *Form and shape fabrication materials under supervision* was replaced by unit standard 25075 after a review in 2008. The last day for assessment for unit standard 2415 was set as 31 December 2010.

All other unit standards in the *Engineering – Fabrication* domain were reviewed in 2009, and the category C and D unit standards were set to expire on 31 December 2014.

Subsequent to the review of unit standards in the *Engineering – Fabrication* domain, some of the impacted qualifications have been reviewed.

A change to the expiry date is necessary in order to maintain the currency of the unit standard, allowing trainees to complete version 4 of the National Certificate in Heating, Ventilating, and Air Conditioning (Level 4) [Ref: 0124].

#### Main changes

Last date for assessment for unit standard 2415 has been changed from 31 December 2010 to 31 December 2014.

## Detailed list of unit standards - classification, title, level, and credits

All changes are in **bold**.

The following table shows the old and the revised expiry dates.

### Engineering and Technology > Mechanical Engineering > Engineering – Fabrication

ID	Title	Level	Credit	Previous Expiry Date	New Expiry Date
2415	Form and shape fabrication materials under supervision	2	10	31/12/2010	31/12/2014
