

Field Engineering and Technology

Change of expiry date for *Petrochemical Operations Communication and Responses* unit standards 9603 and 9630

Subfield	Domain	ID
Petrochemical Industry	Petrochemical Operations Communication and Responses	9603, 9630

The NZ Extractive Industries Training Organisation has extended the expiry dates of the unit standards listed above.

Date new versions published

September 2010

New Expiry Date

December 2012

Summary

These unit standards have had their expiry dates extended in line with the last date for assessments to take place for the expiring National Certificate in Gas Industry (Gas Transmission) (Level 4) with strands in Pipeline Operation, and Instrumentation and Electrical [Ref: 0979]. Extending the expiry date of these unit standards will ensure that the expiring qualification is achievable until December 2012.

Main changes resulting from the review

The expiry date of the unit standards has been changed from 31 December 2011 to 31 December 2012.

Summary of main changes

The following table shows the previous and new expiry dates.

Engineering and Technology> Petrochemical Industry> Petrochemical Operations Communication and Responses

Id	Title	Level	Credit	Previous Expiry Date	New Expiry Date
9603	Identify health, safety and environmental policies and procedures in a petrochemical environment	3	5	31/12/2011	31/12/2012
9630	Demonstrate knowledge of HAZOP study and QRA in a petrochemical environment	4	4	31/12/2011	31/12/2012
