

Field Health**Review of Occupational Health and Safety Practice unit standard 17591**

Subfield	Domain	ID
Occupational Health and Safety	Occupational Health and Safety Practice	17591

The New Zealand Industry Training Organisation has completed the review of the unit standard listed above.

Date new version published

April 2011

Planned review date

31 December 2016

Summary

Unit standard 17591 was reviewed as a result of the change in terminology used in the health sector from Occupational Overuse Syndrome (OOS) to the prevention and management of Discomfort, Pain and Injury (DPI) in the workplace. This unit standard was therefore updated to reflect current terminology and practice. The final version was endorsed by the Industrial Health and Safety Advisory Group in November 2010.

Main changes

- The title, outcome statements, explanatory notes, evidence requirements, and range statements were updated.
- A new outcome statement was added to the unit standard and the credit value increased from 4 to 8.
