

**Field      Engineering and Technology****Reinstatement and Extension of Expiry date for *Industrial Measurement and Control* unit standards**

Subfield	Domain	ID
Industrial Measurement and Control	Industrial Measurement and Control - Maintenance	2651, 2656

The ElectroTechnology Industry Training Organisation (ETITO) has completed the Reinstatement of the unit standards listed above to extend the last date for assessment from 31 December 2010 to 31 December 2011.

**Date new versions published****April 2011****Summary**

Unit standards 2651 and 2656 have been reinstated to allow approximately 33 candidates to complete version 2 of the National Certificate in Industrial Measurement and Control (Level 4) [Ref: 0410].

In 2008 a unit standard review set many of the standards in this qualification to expire at the end of 2010. However version 2 of the qualification has a last date for assessment of December 2011, this mismatch of dates has prevented those people who had not achieved the expiring unit standards from achieving the qualification. Of the group of expiring unit standards it is only these two that have not yet been achieved by the affected candidates.

**Main changes**

- Unit standards 2651 and 2656 reinstated as expiring until 31 December 2011.

**Impact on registered qualifications**

Key to type of impact	
<b>Affected</b>	The qualification lists a reviewed classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits The qualification lists a C or D category standard
<b>Not materially affected</b>	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

The following ETITO qualification is impacted by the outcome of this Reinstatement. The classifications and/or standards that generated the status *Affected* are listed in **bold**.

Ref	Qualification Title	Classification or ID
0410	National Certificate in Industrial Measurement and Control (Level 4)	<b>2651, 2656</b>

**Detailed list of unit standards – classification, title, level, and credits**

Engineering and Technology > Industrial Measurement and Control > Industrial Measurement and Control - Maintenance

<b>ID</b>	<b>Title</b>	<b>Level</b>	<b>Credit</b>	<b>Old Expiry Date</b>	<b>New Expiry Date</b>
2651	Maintain signal conditioning equipment, recorder, and alarm module	3	6	31/12/2010	31/12/2011
