**Date new versions published****August 2011**

The next qualification review is planned to take place during 2016.

**Summary of review and consultation process**

The Meat Industry Advisory Group, made up of industry representatives and training providers, met in August and September 2010 to review a number of the unit standards in the Meat Processing and Leather Manufacturing subfields because they had either reached their planned review date or were no longer considered fit for purpose. A number of the unit standards were no longer considered to be at the right level as the tasks related to the unit standards were being carried out by employees who were acting autonomously and not supervised as the level implied. Review of these unit standards had a flow-on effect as they were often prerequisites or recommended unit standards for unit standards at a lower level.

At the same time as the unit standards were reviewed the qualifications were also considered and amended to reflect current industry practice and changes related to the unit standard review. This resulted in two qualifications being replaced with three new qualifications and two qualifications being designated as expiring as they were no longer fit for purpose. Two new qualifications, the National Certificate in Meat Processing (Rendering) with strands in Low Temperature Rendering Process, and High Temperature Rendering Process, and an optional strand in Blood Meal Processing [Ref: 1700], and the National Certificate in Meat Processing (Rendering) with an optional strand in Blood Meat Production [Ref: 1701] were developed to fill identified gaps. The changes were made and endorsed by the Advisory Group in September 2010.

As a result of the review the Meat Industry - Further Processing domain has been split into four additional domains. Unit standards in the Meat Industry - Further Processing domain have been amended to take this change into account. This resulted in a requirement to amend the qualifications to reflect these domain changes. The domain changes were endorsed by the Advisory Group in March 2011.

**Main changes resulting from the review**

- Titles of nine qualifications (Refs: 0689, 0691, 0693, 0649, 0932, 0956, 1425, 1497 and 1516) were amended to reflect changes made and/or to include the level in the title.
- Two qualifications (Refs: 0690 and 0957) were replaced by three new qualifications (Refs: 1698 and 1699; and Ref: 1702).
- Two qualifications (Refs: 0695 and 0955) were designated expiring and will not be replaced.
- Two new qualifications were developed (Refs: 1700 and Ref: 1701).
- Credit totals were updated.
- Qualification structures were amended.
- Unit standard details were updated to reflect changes made at review.

## Transition

The National Certificate in Meat Processing (Boning) (Level 3) [Ref: 1698] and the National Certificate in Meat Processing (Further Processing) (Level 2) with strands in Trimming, Saw Operations, Quartering, Packaging, and Dispatching [Ref: 1699] replaced the National Certificate in Meat Processing (Further Processing) (Level 2) with strands in Boning, Trimming, Saw Operations, Quartering, Packaging, and Dispatching [Ref: 0690].

There are significant differences in content and structure between the new and replaced qualifications.

- Standards 497, 2505 and 17593 from the Compulsory, and 2503 from the Elective, of Ref: 0690 were included in the Compulsory of Ref: 1698.
- Standards 20222 and 21627 from the Boning Strand of Ref: 0690 were included in the Elective of Ref: 1698.
- Standards 3501, 4248, 4249, 7123 and 12382 from the Compulsory of Ref: 0690 were not included in Ref: 1699.
- Standards 1304, 2504, 2506, 3097, 9681, 12624, 16688, 17024, 18766, 20232 and 20233 from the Elective of Ref: 0690 were not included in Ref: 1699.
- The Boning strand of Ref: 0690 was not included, but standards from the strand may be used to meet the credit requirements of the Balance section of in Ref: 1699.
- All other standards listed in Ref: 0690 not listed in Ref: 1699 may be used to meet the credit requirements of the Balance section in Ref: 1699.

People currently working towards the replaced qualification may either complete the requirements for that qualification by 31 December 2012 or transfer their existing achievements to Ref: 1698 or Ref: 1699.

Ref: 1698 contains standards that replace or are substitutes for earlier standards. For the purposes of this qualification, people who have gained credit for the expiring standards are exempt from the requirement to gain credit for the replacement standards – see table below.
