

Field Service Sector**Review of *Airport Operations* unit standards**

Subfield	Domain	ID
Aviation	Airport Operations	13414-13423

The Aviation, Tourism and Travel Training Organisation has completed the review of the unit standards listed above.

Date new versions published

February 2011

Planned review date

December 2016

Summary

A group of experts in airport management and operation, including representatives of provincial domestic and international airports, the Royal New Zealand Air Force and the Civil Aviation Authority, with expertise in support, management, safety/health and training roles, was consulted and examined the standards for fitness for purpose. The standards were modified to suit the purposes of current airport practice and to clarify the evidence requirements. Final drafts were endorsed by the group of experts.

Main changes

- Standards were amended to reflect current practice.
- Explanatory notes were changed to reflect current legal requirements and to clarify assessment requirements.
- The level and credits of standard 13415 were changed to better reflect the time required for learning and assessment and the complexity and responsibility of the skills involved in completing the requirements.
- The requirement to provide evidence for both contracted and self-administered air traffic services to achieve standard 13418 was removed as it was seen as an obstacle to achievement. The title was amended to reflect the changes to the standard.
- The level of standard 13420 was increased to better reflect the complexity and responsibility of the skills required to achieve the standard.

The last date for assessment of superseded versions of these standards is 31 December 2014. Results will not be accepted where the assessment date is after the last date for assessment of the standard.

Impact on registered qualifications

Key to type of impact	
Affected	The qualification lists a reviewed classification (domain or subfield) in an elective set The qualification lists a standard that has changes to level or credits The qualification lists a C or D category standard
Not materially affected	The qualification lists a standard that has a new title The qualification lists a standard that has a new classification

The following ATTTO qualification is impacted by the outcome of this review and will be updated when reviewed in 2011. The standard that generated the status *Affected* is listed below.

Ref	Qualification Title	ID
0514	National Diploma in Airport Operations (Level 5)	13420

Detailed list of unit standards – classification, title, level, and credits

All changes are in **bold**.

Key to review category	
A	Dates changed, but no other changes are made - the new version of the standard carries the same ID and a new version number
B	Changes made, but the overall outcome remains the same - the new version of the standard carries the same ID and a new version number
C	Major changes that necessitate the registration of a replacement standard with a new ID
D	Standard will expire and not be replaced
