Competenz has completed the reinstatement and rollover of the unit standard listed above.

**Date new versions published**

**February 2011**

**New expiry date**

**December 2013**

**Summary**

Competenz needed to reinstate expired unit standards 7768, 7770, 7771, and 7793 to enable approximately 80 trainees to complete versions 1, 2 and 4 of the National Certificate in Food and Related Products Processing (Level 2) [Ref: 0342]. The trainees had completed the majority of unit standards required until the programme was put on hold due to economic restraints within their business. The reinstatement of these unit standards will ensure these trainees will now be able to complete versions 1, 2 and 4 of the qualification rather than transfer to version 8, which is significantly different.

**Main changes**

The expiry dates of the unit standards have been extended to December 2013.

**Impact on Accreditation and Moderation Action Plan (AMAP)**

AMAP 0111 has been updated to show the reinstated unit standards.
