The next qualification review is planned to take place during 2016.

Summary of review and consultation process

The Industry Advisory Group met in January, August, and October of 2010 to discuss feedback from stakeholders about the fitness for purpose of the qualification. A key issue with version 2 was that most enterprises were not able to provide training in all aspects of biscuit, bread, cake and pastry baking. Consequently it was proposed that the replacement qualification be stranded. The stakeholders consulted included industry representatives from small, medium and large bakeries, Private Training Establishments, and Institutes of Technology and Polytechnics.

The replacement qualification was stranded to enable candidates to complete the requirements for award using products produced by their current bakery.

The replacement qualification was endorsed by the Baking Industry Advisory Group, in December 2010.

Main changes resulting from the review

The structure of the replacement qualification includes strands in Biscuit, Bread, Cake, and Pastry, and an optional strand in Team Leading.
