Tranzqual ITO has completed the review of the unit standards listed above.

Date new versions published **May 2011**

Planned review date **May 2016**

Summary

The review of the unit standards in the Passenger Service domain was conducted concurrently with the planned reviews of the:

- National Certificate in Passenger Service (Small Passenger Vehicle) with an optional strand in Taxi Driving [Ref: 0180];
- National Certificate in Passenger Service (Large Passenger Vehicle) with strands in School Bus; Urban and Local Route; and Long Distance [Ref: 0190]; and
- National Certificate in Commercial Road Transport (Taxi Operations) [Ref: 0970].

Two Industry Advisory Groups (IAGs) were established in December 2009 to carry out the review. The Large Passenger Service IAG included representatives from bus and coach companies, training providers, industry assessors, and the Bus and Coach Association (NZ). The Small Passenger Service IAG included representatives from taxi companies, training providers, and industry assessors.

In 2010, the IAGs reviewed the unit standards at a series of meetings, guided by recommendations from the *Bus and Coach Industry Skills Strategy 2010-2013* and the *Taxi Industry Skills Strategy 2010-2013*. The draft unit standards were then circulated for national consultation and endorsed by industry in February 2011.

Main changes

- Three new unit standards were developed to recognise the knowledge and skills required to drive coaches, articulated buses, and electric trolley buses.
- A new unit standard was also developed to recognise the knowledge and skills required to drive a light motor vehicle in a fuel efficient manner.
- Unit standard 18070 was designated expiring because it is no longer required by industry.
- The credit values of unit standards 1750, 1751, 15157, and 15162 were updated to reflect assessor feedback and industry expectations regarding the time taken to become competent.
- The levels of unit standards 1749 and 15949 were updated to reflect changes made to the unit standards that affected knowledge and skill requirements.
- Titles, outcome statements, evidence requirements, and range statements were amended where appropriate to reflect current industry practice.

The category D unit standard will expire at the end of December 2013
