Date new versions published

June 2011

Planned review date for revised unit standard

**December 2015
(unchanged)**

Planned review date for new unit standards

December 2016

Summary

This unit standard was revised to update its credit value because of industry feedback that suggested the credit value was too low.

At the same time, a group of industry experts developed two new unit standards to cover the knowledge and skills relevant to flying aircraft as a pilot-in-command.

Main changes

- The credit value of unit standard 26213 increased from 5 to 8.
- New unit standards 27390 and 27391 were registered.

Details of unit standard – classification, title, level, and credits
