

Field Manufacturing**Revision and rollover of *Plastics Fabrication* unit standards**

Subfield	Domain	ID
Plastics Processing Technology	Plastics Fabrication	20655-20658

The Plastics and Materials Processing Industry Training Organisation has completed the revision and rollover of the unit standards listed above.

Date new versions published

March 2011

Planned review date

December 2013

Summary

These unit standards were revised and rolled over in 2009 to extend their planned review date and maintain their currency until they are reviewed in 2013. The amendments made at revision were confirmed by an Industry Advisory Group made up of industry representatives.

Main changes resulting from the revision and rollover

- The entry information for unit standard 20655 was updated.
- References to technical documents were updated in unit standards 20656 and 20657.
- The planned review date for these unit standards was extended to December 2013.

Detailed list of unit standards – classification, title, level, and credits

Manufacturing > Plastics Processing Technology > Plastics Fabrication

ID	Title	Level	Credit
20655	Demonstrate knowledge of plastics materials joining techniques	2	2
20656	Hot-air weld rigid plastics materials	3	8
20657	Extrusion weld rigid plastics materials	3	6
20658	Butt weld polyolefin pipes	3	6
