	Geometry	91031	Mathematics and Statistics 1.6
Statistics and Probability	Statistics	91037	Mathematics and Statistics 1.12
Science	Chemistry	90934	Chemistry 1.5
	Science - Core	90947	Science 1.8

Social Sciences > Social Science Studies

Domain	ID	Subject reference
Geography	91008	Geography 1.2

The Ministry of Education has completed a revision of the achievement standards listed above.

Date new versions published November 2011

Planned review date December 2014

Summary of review and consultation process

Some of the Level 1 achievement standards required changes to address issues encountered during their first year of use.

Main changes resulting from the revisions

- Accounting – Explanatory Note 1 amended to include a reference to the Teaching and Learning Guide.
- Health – Deletion of unnecessary wording in Explanatory Note 3.
- Mathematics – Removal of the reference to ‘a range of’ situations, methods or procedures from the Explanatory Notes, including the paragraph expanding on the

term. This information relates to teaching and learning programmes rather than to what will be assessed.

- Chemistry – Deletion of ‘iron(III)’ from Explanatory Note 5.
- Science – Deletion of ‘iron(III)’ from Explanatory Note 6.
- Geography – Clarification of context for assessment in Explanatory Note 3. Although teaching and learning programmes relate to different countries and regions, the evidence presented for assessment does not need to relate to different countries or regions across examination questions: for example, if question one can be answered using New Zealand as the context, this does not preclude the use of Auckland as the context for the answer to question two.

The last date for assessment of the superseded version of externally assessed achievement standards is end of	December 2011
--	----------------------

The last date for assessment of the superseded version of internally assessed achievement standards is end of	December 2012
